

DC Soldering guide

1 CONFIGURATION JUMPERS

1.1 4 PLAYER

2 HEADERS

Facing the same side as the configuration pins, solder:

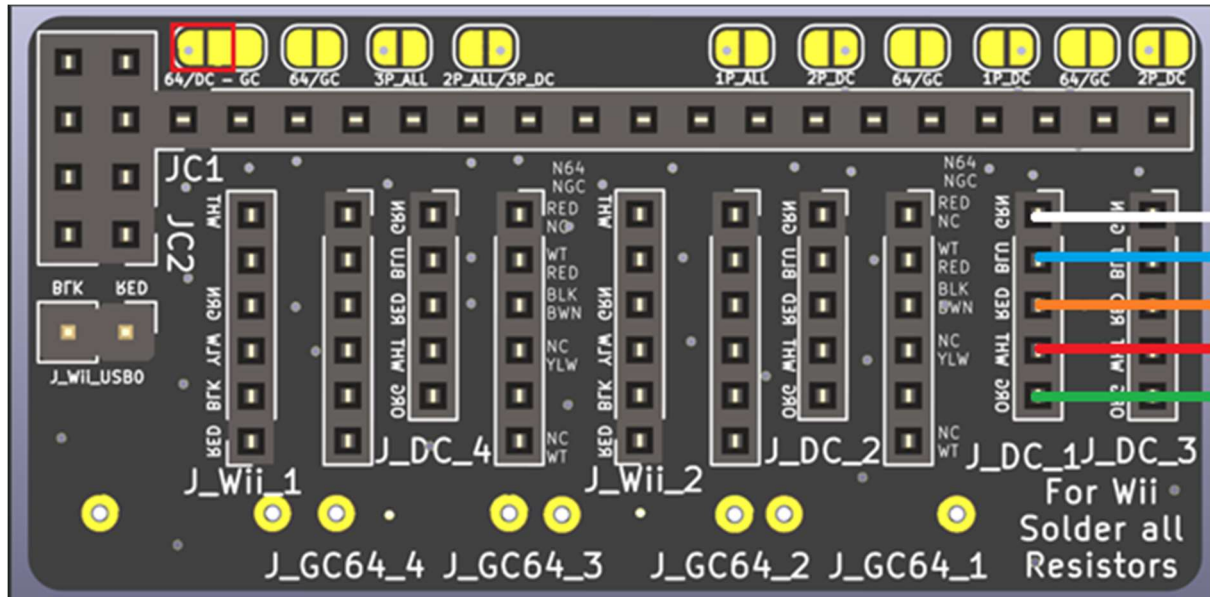

1x20 2.54mm socket header

2x4 2.54mm socket header

1x2 2.54mm socket header

3 REVISED CONNECTOR GUIDE

Solder the controller cables to J_DC_1 to J_DC_4. If your model was bought after August 2023, it's likely you will need the following revised colour guide:

PCB Colour Name	→ Cable Colour	→ Pinout
Green	→ White	→ Ground
Blue	→ Blue	→ Sense
Red	→ Orange	→ Data 1
White	→ Red	→ Data 2
Orange	→ Green	→ VCC

4 CONNECTORS [ORIGINAL]

Solder the controller cables to J_DC_1 to J_DC_4. If your cable is a pre August 2023 model using the following wire colours, then follow the PCBs colour guides for the wires. **If your model was bought after August 2023, please note our supplier of Dreamcast cables changed their wire colours, see the guide further below.**

Facing Controller Cable End
